www.mosaicwallmurals.com

A great way to display unity and a common purpose for a business, church, school or other organization.

We specialize in providing high quality vinyl murals for you home, school, company or organization. We use a mosaic process in which your mural image is made up of many individual tiles or photos, which when viewed from a distance, resolves into your mural.

We can design your mural for you based on your specifications or you can send it to us in any number of formats including print, photo, or any digital format you may have including Photoshop, Illustrator, CorelDraw and others.

You then send us your collection of individual photos in digital format such as jpg, tiff, bmp, gif or Photoshop, the more photos you have the better! A minimum number would be around 100, we have done murals with as many as 4500 individual images.

We prefer to have you send the photos on a CD, DVD or zip disk. Once we have your mural image and collection of photos we apply our mosaic software and send you a proof of your assembled mural, once approved, the file is printed on heavy gauge vinyl which goes up just like wallpaper or can be hung on a pole and shipped directly to you.

HOW IT WORKS

Step 1

Send us the image or picture you would like made into a mural or poster. This can be in any format such as Photoshop, Illustrator, Corel Draw, jpeg, bmp, tiff etc. You can send it via an [email attachment](#), on a disk, or send the actual image via the U.S. mail. If you would like us to design the mural for you, based on your specifications, we are able and willing to do that as well.

Step 2

Tell us the size of the mural or poster. This needs to be proportional to the image from above. For example a 5x7 photo could be done as a 5 foot by 7 foot mural or as a 10 foot by 14 foot mural. Alternately, you could simply tell us how wide or how tall you would like it to be. The cost is based on the final size which can be calculated on our [prices page](#).

Step 3

Send us your tile images to the address on the [contact us](#) page. Please include a printout from the [order form](#) page. These can be in any digital format, but we prefer jpg, bmp, gif or tiff. You can mail or ship them on a CD, DVD or zip disk. If there are both horizontal and vertical images the tiles can be square, in which case, some of the edges will be cropped. If all or most of the image are horizontal, we will use horizontal, tiles. Same thing goes with vertical tiles. The more tile images you have, the better the resulting mural will look. Also the more variety of colors and values in your image collection, the better the result will be.

Step 4

Once we have the images and information from above, within a few days we will use specialized software to create the best possible mural given the source image and the tile collection. The number of tiles we use to make up the image is also determined by how many images in your collection. The more the better! For example a 4 foot by 8 foot mural could have 48 x 96 square inch tiles or 4608 total tiles. If your image collection has only 200 images. each image will be repeated about 23 times. In any case, we will examine both the source and image collection and render the best image we can. At this point, we will e-mail a low resolution proof of the mural similar to the images you can see on our [gallery page](#).

Step 5

Once you have received the emailed proof, get back to us with the included approval form and invoice. You can pay by check or paypal. Once we receive your payment and approval, the image will be printed either on photo quality paper in the case of a poster or heavy gauge vinyl in the case of a mural. The process takes about a week to complete and the finished mural will be shipped via UPS to the address on the order form.

Prices

Our basic price for a vinyl wall mural is \$6.50 per square foot. To get an idea of the cost for your mural, consult the chart below. For murals smaller than 5x5 the cost will be \$234.00. For murals larger than 10'x12', please use our [order form](#) page to request a quote. Shipping will be via UPS and will cost anywhere from \$25.00 - \$75.00 depending on the size of the mural and the location. Once you complete the order form and send us your files we will e-mail you back with the exact cost with shipping along with your digital proof.
